PROFESSIONAL SUMMARY

Aspiring Python Full Stack Developer with hands-on experience in Flask, REST APIs, SQL, and scalable backend application development. Skilled in building responsive web applications, authentication systems, API integration, and database-driven solutions using Python and modern web technologies.

EDUCATION

B.Tech in Electronics and Communication Engineering
NRI Institute of Technology, Agiripalli

2021 – 2025
Percentage: 74.47%

EXPERIENCE

Codegnan IT Solutions, Hyderabad

Oct 2025 – Feb 2026

Python Full Stack Trainee

- Developed backend applications using Python, Flask, REST APIs, and SQL.
- Worked on authentication systems, API integration, and database-driven web applications.
- Improved debugging, problem-solving, and backend development skills through real-time projects.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript

Backend: Flask, REST APIs

Libraries: Pandas, NumPy, PDFPlumber

Concepts: OOP, DBMS, API Integration

Frontend: HTML5, CSS3, Bootstrap

Database: MySQL, SQLite3

Tools: Git, GitHub, VS Code

Deployment: Render, PythonAnywhere

PROJECTS

E-Commerce Web Application

[Link](#)

Python, Flask, SQL, HTML, CSS, JavaScript, RazorPay API

- Developed full-stack e-commerce application with authentication, cart management, and order placement.
- Integrated Razorpay payment gateway and optimized SQL database operations for secure transactions.
- Managed backend APIs and designed responsive frontend UI for better user experience.

ATS Resume Analyzer

[Link](#)

Python, Flask, HTML, CSS, PDFPlumber, Regex

- Developed Flask-based ATS Resume Analyzer to automate resume screening and candidate shortlisting.
- Implemented PDF parsing, text extraction, and skill matching functionality using PDFPlumber and Regex.
- Built ATS scoring system to classify resumes based on matching technical skills and keywords.
- Designed and deployed responsive recruiter dashboard using Flask, GitHub, and Render.

ATM Management System using Flask

[Link](#)

Python, Flask, MySQL, REST APIs

- Developed ATM simulation system with secure authentication and transaction management features.
- Implemented withdrawal, deposit, balance enquiry, and transaction history functionalities.
- Integrated Flask backend with MySQL database for secure data handling and storage.

CERTIFICATIONS

- Wipro TalentNext – Java Full Stack ([Link](#))
- HackerRank – Python (Basic) ([Link](#))
- Junior Software Developer Qualification – A Grade with 15 Credits ([Link](#))

ACHIEVEMENTS & ACTIVITIES

- Developed multiple academic and real-time projects focused on Python Backend and Flask Development.
- Participated in “SUNRISE-2K22”, Young Indians Future 3.0, and Technical Quiz conducted by IETE.
- Participated in a comprehensive 2-day PCB Designing Workshop, gaining hands-on experience in circuit design and layout techniques.
